### How did the Kids Garden seed get planted?

It all started with an individual mom who was looking for help, but didn't need the full time commitment of an everyday daycare...not to mention the wait lists, contracts, deposits and schedules—all to get the occasional break. There *had* to be more moms looking for flexible care. So when she couldn't find it....she created it!

### Why own a Kids Garden Franchise?

If you are looking for an incredibly fulfilling opportunity to grow with your community and its children, this is for you!

### How does the Garden Grow?

- Fills the gap in traditional childcare needs
- Provides freedom and flexibility with various options for drop-in, memberships, programs and camps
- Provides a creative curriculum with hands-on learning, arts and activities that let children experience learning (rather than finding it online)

### Who makes a good Gardener?

- Creative moms looking to get out of the 9-5 grind
- Teachers who know they can offer more to a full community than just one classroom
- Creative entrepreneurs who are passionate about children and the arts, and want to make a difference while gaining a solid profitability
