

Grow Your Own Garden

Sprout a Franchise Seed in your area

It all started with one mom's dream for nurturing, creative and *flexible* childcare. What resulted was a unique model of creative arts learning centers, offering children the opportunity to learn and play in a natural and creative way. Our franchisees love the daily work environment of an enriching childcare center, and the opportunity to foster exploration, learning and growth every day through our curriculum and their local communities. At Kids Garden, we serve the whole family, and pour back into our communities with peace of mind, creativity and nurturing support.

Kids Garden is currently located in:

- Mount Pleasant, SC
- Charleston, SC
- Asheville, NC
- Houston, TX
- Steamboat Springs, CO

Harvest the Garden Headquarters:

57 S. Windermere Blvd.
Charleston, SC 29407

- Drop-in Learning, Daily for ages 12 months - 12 years
- Flexible Preschool
- Afternoon Enrichment Programming
- Creative Classes and Daily Art Education
- Celebrations & Parties
- Creative Camps
- Parents Night Out

How did the Kids Garden seed get planted?

It all started with one mom, who was looking for help, but didn't need the full-time commitment of an everyday childcare center... Not to mention the wait lists, contracts, deposits and schedules - all just to get an occasional break. There *had* to be more parents looking for flexible care. When she couldn't find it, she created it!

Why own a Kids Garden Franchise?

If you're looking for an incredibly fulfilling opportunity to grow with your community and its children, this is for you!

How does the Garden grow?

- Fills gap in traditional childcare needs for the ever-evolving needs of modern day families
- Provides freedom and flexibility with various option for drop-in, memberships, programs and creative camps
- Provides a creative curriculum with hands-on learning, art education, and activities that let children *experience* learning for themselves, rather than sourcing it from a screen.

Who makes a good gardener?

- Creative moms looking to get out of the 9-5 grind
- Teachers who know they can offer more to a full community than just one classroom
- Creative entrepreneurs who are passionate about children and the arts, and want to make a difference while gaining a solid profitability.

Ready to get a green thumb in your Garden?

We look forward to connecting with you, and sharing more about the garden and all the seeds that are growing! - Maren Anderson Moore
